**Laboratory**

We have never been against technology or modern toys, but we have always been clear that the less sophisticated a toy is, the more options to play it offers. What's more, sometimes the best toys are ones that don't limit themselves to being just toys. A simple rope can be a river, a belt, a snake, or a microphone. A bag of marbles exchanges its contents for gold coins, magic beans or fairy dust. A strainer is now a knight's helmet or the

perfect complement to a flashlight to recreate a starry night, and finally, some sheets (may we never run out!), can give us a curtain, a cape, a flag, and even, why not, the sails of a pirate ship.

And so, aside from creating life, to play is to create in the most perfect way that we can imagine.

SO LET'S PLAY!

*Ladies and gentlemen, girls and boys, the play is about to begin!*

# The play is about to begin

THE BEST PLAY IN THE WORLD.

One of our best childhood memories comes from summer afternoons at our aunt and uncle's house in the village. Our cousins, friends, and neighbors would meet there for a while and the time passed organizing party after party. Among all these celebrations, there was one that surpassed all emotions: the play that we little ones prepared for the adults.

We took care of everything: the script, the costumes, the props and sets, the makeup and, of course, the acting. We spent hours arguing over who was the most suitable for each role or position, and once this was decided, hours carrying out what we had to do. Everything was used for anything and everything seemed

like a brilliant idea to us. Absorbed in these tasks, we spent days, until the nerves couldn't wait any longer and someone shouted: **"That's it! The play is about to begin!"**

What came next was usually the closest thing to "a series of unfortunate events": the curtain fell, someone did not remember their line, someone else remained silent, the costumes were torn, you couldn't hear the music and almost nothing made sense. Despite it all, we always received a standing ovation.

That experience is not just a memory that today serves us for this catalogue. In reality, that experience is rooted in the origin of Me&Mine.

# A Midsummer Night's Dream...

Our play begins with a dream, the very dream of making this play come true.

# About Me&Mine

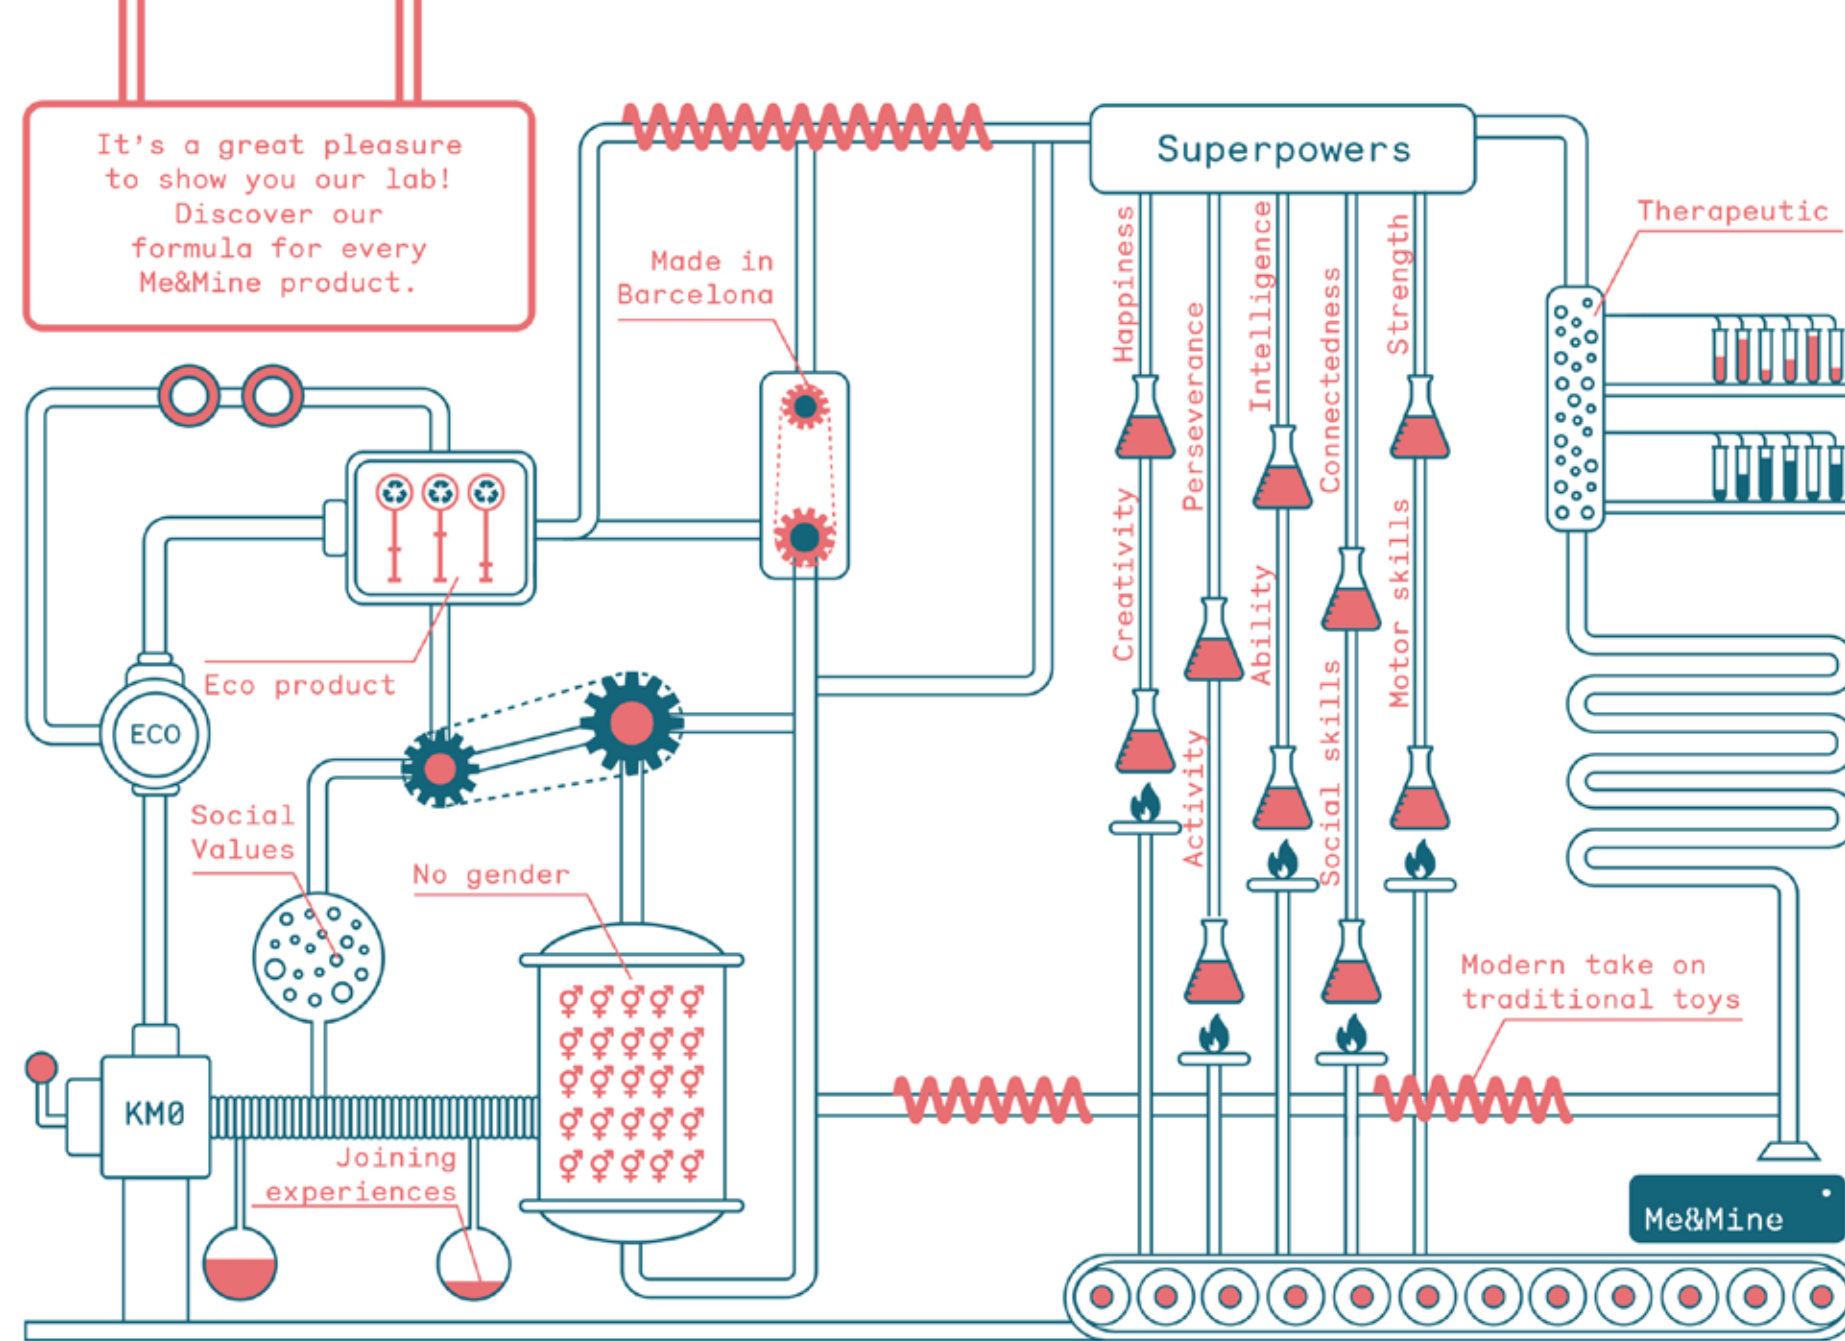

## Who & What is Behind the Scenes

Me&Mine is a brand created by two women, Isabel and Olga, but to say that we are the people behind the brand doesn't tell the whole story. Because the truth is that without the help of our husbands, daughters and sons, and fathers and mothers, Me&Mine wouldn't exist. So at Me&Mine we are a team, our team of games.

But Me&Mine is also a proposal for children's products designed to enhance the connection between children and adults.

We are convicted that having fun, learning, imagining, remembering, and getting excited TOGETHER helps us grow up safe and happy, and we can't think of a better inheritance for our sons and daughters.

# Laboratory

SOMETHING WE'RE PROUD TO SHOW OFF

Laboratories usually hide their secret formulas, but we open our doors wide to anyone who wants to visit.

There, everything is mixed: old and new, things from here and there, feelings and experiences.

There's no secrecy to what we do. Our products are simple and honest, and don't try to be anything more than what they are.

We believe in a present and future that's more sustainable and fair, which is why we produce at a local level with producers who continue centuries-long traditions and use ecological and non-contaminating materials.

We also collaborate with intermediary companies in the social sector, contributing our bit in creating job opportunities for everyone.

*“If we shadows have offended,  
Think but this, and all is mended:  
That you have but slumbered here  
While these visions did appear.  
And this weak and idle theme,  
No more yielding but a dream,  
Gentles, do not reprehend”.*
